

**Jack Devilbiss, AIA, LEED AP BD+C**

**Associate Partner**

**Bonstra | Haresign ARCHITECTS**

---

Jack Devilbiss, AIA, LEED AP BD+C has 20 years of experience in the architectural profession. From his work in residential, retail and commercial design, Mr. Devilbiss has extensive project experience with a wide variety of project types and scale. As a Project Manager | Senior Project Architect with Bonstra | Haresign ARCHITECTS, Jack's focus has been on the adaptive use of existing apartment buildings within DC Historic Districts. This work has included all levels of renovation from interior, cosmetic rehabilitation to work including substantial alterations and additions as well as building system modernization. Jack has worked closely with DCRA and Zoning officials, DC Water, DDOT and DC historic preservation agencies as well as with community and neighborhood organizations. Jack currently serves as the chair of the AIA | DC Advocacy Committee, and has volunteered in various capacities with the Washington Architectural Foundation and the University of Maryland Real Estate Development Program.

---

#### RELEVANT PROJECT EXPERIENCE

**850 Sligo Avenue, Silver Spring, MD** – Senior Project Team Leader for the addition, renovation, and adaptive reuse of an existing 30,500 SF, 8-story + cellar office tower. With a 6-story + parking addition, the finished work will result in a combined 81,600 SF, 80-unit + retail mixed-use development.

**The Lafayette Apartments, Arlington, VA** – Senior Project Team Leader for Level 1 and Level 2 renovations to existing 341-unit garden style apartment complex.

**Tilden Hall, Washington, DC** – Senior Project Team Leader for the preservation, restoration and renovation of a historic 76-unit apartment building and the construction of a 5-story, 25-unit residential addition.

**1841 Columbia Road, NW, Washington, DC** – Senior Project Team Leader for the renovation in place of an existing historic 119-unit 114,000 SF apartment building and retail storefront.

**1360 Peabody Street, NW, Washington, DC** – Senior Project Team Leader for the reconstruction of, and renovations to, the fire-damaged existing 53-unit 50,305 SF apartment building.

**1801 – 1811 Wyoming Avenue, NW, Washington, DC** – Senior Project Team Leader for a condominium conversion of two historic 1910 apartment buildings with 43-units plus retail.

**1430W Street, NW, Washington, DC** – Senior Project Team Leader for the renovation of an existing, historic 1908, 36-unit, 32,000 SF apartment building.

**1921 Kalorama Road, NW, Washington, DC** – Senior Project Team Leader for the renovation of an existing, historic 1929, 59-unit, 65,000 SF apartment building.
